

**NATURAL
ENERGY THAT
MOVES YOU!**

E-motion® *energy shot*

A source of natural energy for maintaining physical stimulation and mental focus throughout the day – with the added anti-aging benefits of a powerful antioxidant.

Does the “crash and burn” effect from traditional sugar-loaded energy drinks affect your ability to get through the day?

Finally! An improved alternative for sustained energy levels – that fits your on-the-go lifestyle!

Studies show that the average American between the ages of 25 and 54 gets approximately 7.6 hours of sleep every night.¹ This leaves you with over 16 hours to get the most out of life every day. And with everything there is to see, do and experience, getting the most out of life depends on having optimum energy levels at all times – day and night – taking you from work, straight into the party of life!

THE GOOD NEWS!

You can do everything you need to without worrying that you'll run out of steam before you run out of day, by naturally enhancing your energy level and mental focus for increased productivity.
